The premium newswire for cybersecurity and infosec.

01 **News distribution to leading cyber and business magazines**

02 **Guaranteed homepage coverage for maximum traction**

03 **Customized reports and analytics**

Legacy newswires spray and pray.

They push your release into a feed, and it lands on local TV and radio station sites your audience never reads. CyberNewswire publishes it on the cybersecurity outlets they do.

01 Guaranteed outlets, named before you pay

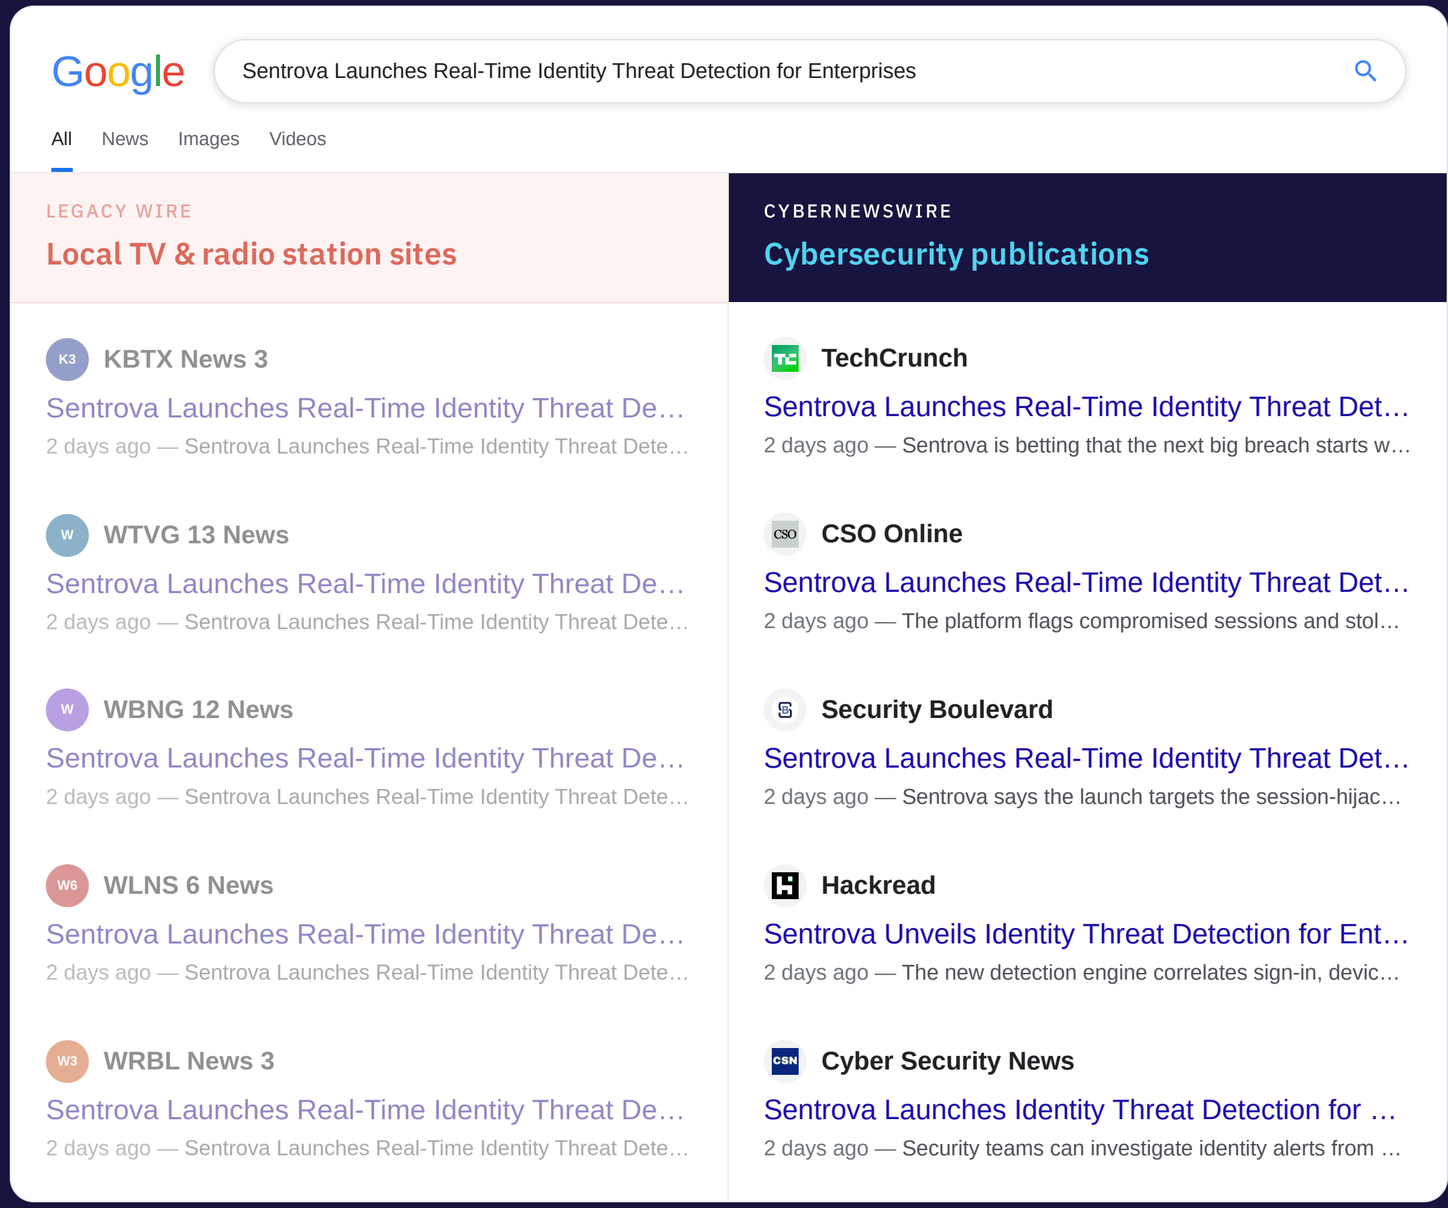

Every package lists the publications it guarantees. No feed, no guesswork.

02 Built for cybersecurity, not every industry

Your release runs beside the cybersecurity news your buyers, investors and reporters follow.

03 Homepage placement

Your release is featured on the publications' homepages, not buried on a press-release page nobody visits.

CyberNewswire is part of MediaFuse.

MediaFuse is all about niche-focused distribution. We've been in PR since 2014 and run six newswires, each built for one industry. When your news spans two, like cybersecurity and finance, we run it on both.

PAID PRESS RELEASE

Technology Newswire — August 6, 2026

Inevitable AI Group raises $6M from Aleph to launch AI-native SaaS companies

TEL AVIV, Israel, 06.08.2026 — Inevitable AI Group (IAIG), an AI-native venture studio founded by veteran technology entrepreneurs, today announced a $6 million pre-seed funding round led by Aleph. The company is building and launching dozens of AI-native software businesses designed to capitalize on the rapidly changing economics of software development.

Founded by Nimrod Lehavi and Ofer Bar-Or, IAIG was created around the thesis that advances in artificial intelligence are enabling small teams to build, launch, and scale software products faster and more efficiently than ever before.

Rather than building a single company, IAIG operates as a venture studio, partnering with entrepreneurs to launch AI-native products in a matter of
